

Interação Pessoa-Máquina

2022/2023

# CONNECTABROAD

---

Stage 3: 1st prototype

**Authors:**

66320, Fleur de Korver  
53206, Inês Rocha  
52866, Tiago Gomes  
52862, Vicente Cruz

**Lab class Nº 1**

**Group Nº 7**

**Professor:**  
Teresa Romão

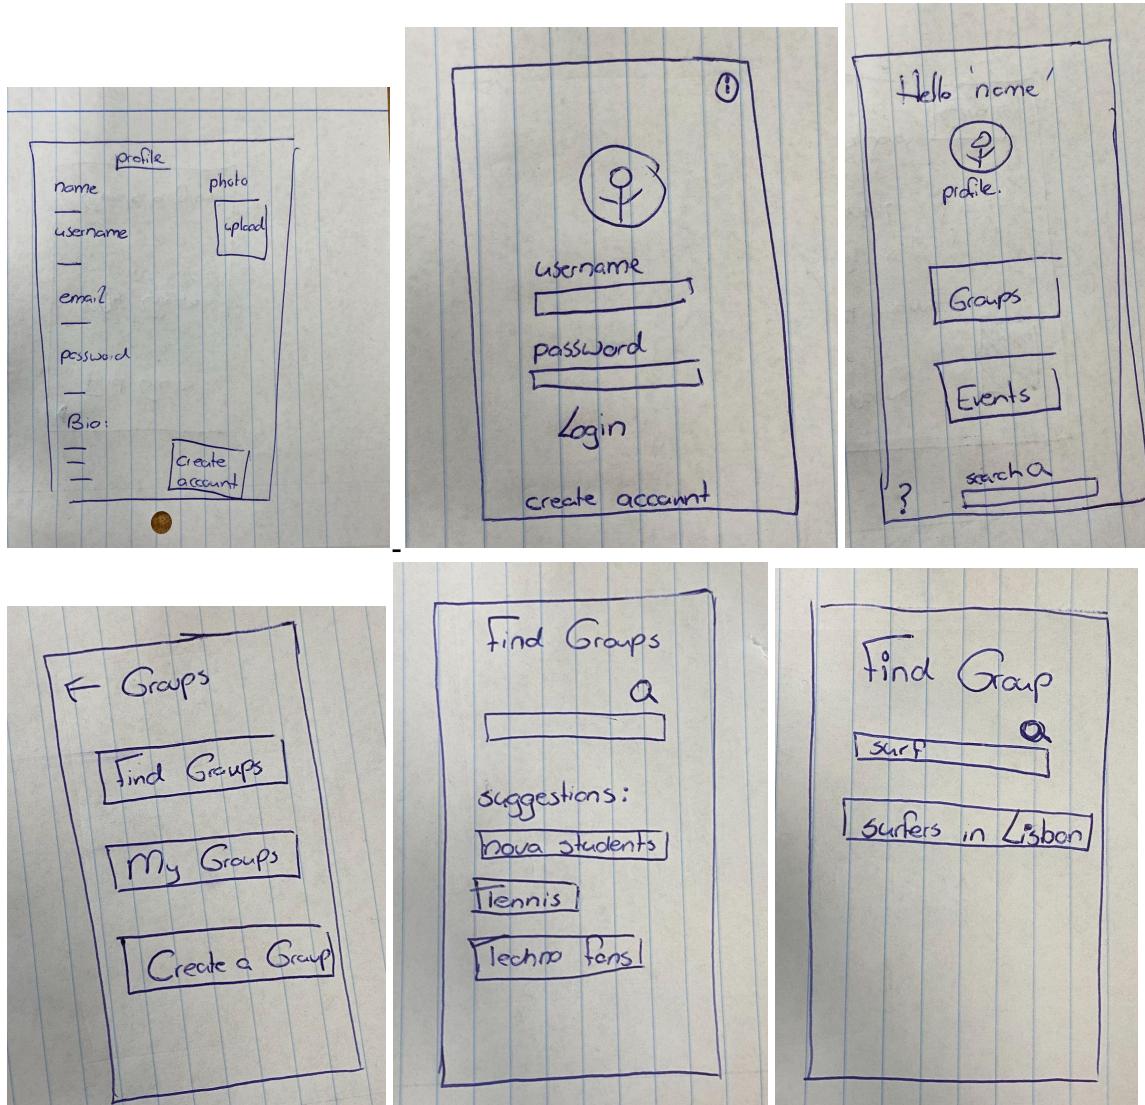

Month 10, 2022

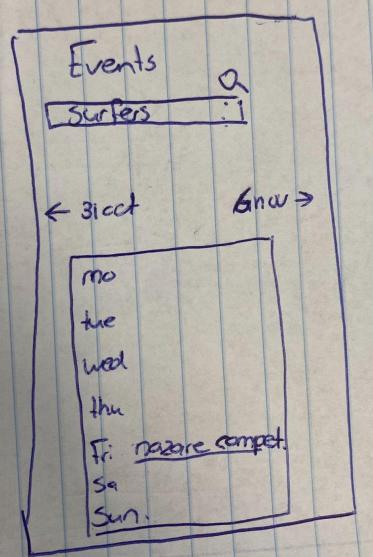

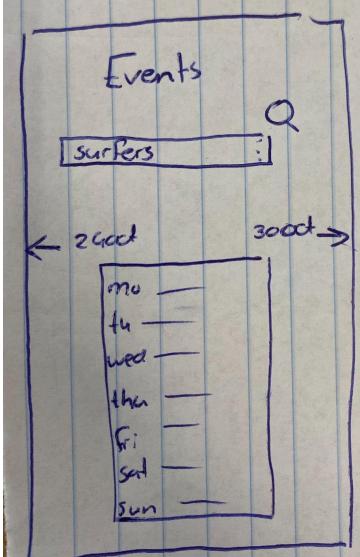

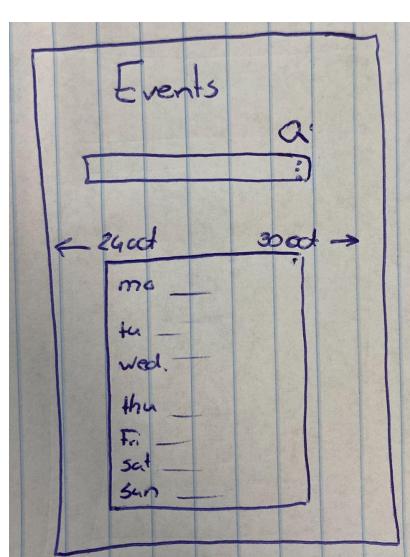

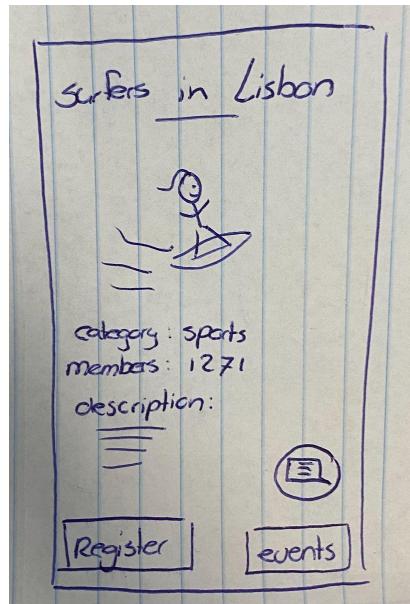

## Paper prototype Report

The 1<sup>st</sup> prototype report should include:

- **Sketches:** Your first approach to the design to show how your interface would look at key points of the interaction.
- **Prototype photos and link:** Photos of the relevant pieces of your prototypes and the link to your prototype on Marvel.
- **Storyboards:** Sequence of fixed screens showing the interaction to perform a relevant task (use Marvel screens).
- **Briefing:** The briefing provided to the users.
- **Scenarios:** Scenario descriptions provided to the users.
- **Observation:** Usability problems found during the tests and possible solutions. Describe user comments without identifying them.

### 3 Add an event to your calendar

### 4 Create an event

#### Briefing and scenarios

As an international student you face a lot of challenges when arriving in a foreign country. It can be found difficult to connect with other students or to be up to date on the events that are held in your receiving institution's country. At the moment, different communication resources are used to find either social connections or information on events. Examples of commonly used resources are: Whatsapp, Facebook, study organisations or international student associations (e.g. ESN or ELL). There might be an email of the study organisation informing you about events in the introduction week, a Whatsapp group for all erasmus students in your faculty, a Facebook group for those who want to go surfing, etc...

Therefore, we are designing an app that makes it easier for international students to get in touch with students who have the same interest. As well as providing the students an elaborate calendar of all the activities.

#### 1. Create an account

It is the first time you are using the app "connectabroad". To make use of the app you need to make an account first. Your task is to sign up for the app and create a profile. (For this task you will represent a student called Manuel Brito).

#### 2. Sign up for a group

You are interested in surfing and you want to find a group of surfers in Lisbon. Go to the app and look for "surf". When finding a group for surfers in Lisbon register to this group and start chatting with fellow group members.

### 3. Add an event to your calendar

You are into surfing and you would like to join a surfers event. Check if there is a surfers event in the week of 31th October. If yes, join this event in the app. Afterwards, check your own calendar to see if the event is added.

### 4. Create an event

There is surf competition coming up at Nazare. However, you noticed the event isn't in the calendar yet. Add an event called "Nazare surf competition" for the 4th of November.

### **Observation**

Overall, the users liked the idea and the execution of the application and we received compliments thanks to the user friendly and straightforward design, with assets easy to locate and maneuver. We asked everyone even if they enjoyed the application, about something they would like to change or improve, and here is the feedback received:

- More information in the group and event pages.
- Group list with the create and search options.
- More straightforward week change in the event page, and list the day of the month instead of the week.
- Add the calendar to the profile page.
